

Green05

Oranjesluisweg 6
2676 NA Maasdijk

GENERAL INFORMATION

It is with great pleasure that we present you with our first newsletter introducing the companies, and (some of) their products, present at Green05 in Maasdijk during Flower Trials 2018. At Green05 you will meet 6 very different companies. We welcome your visit!

Brandkamp

Brandkamp cultivates chrysanthemums and bedding plants and produces young plants.

Fuchsia Jollies are now the synonym of a modern fuchsia. The large-flowering varieties of the Jollies La Grande range have the same good qualities as the Jollies. They are weather-resistant and branch out very well. The bright colors and the great growth make them a real eye-catcher.

DHM Innovation

DHMI is a leading breeding company in Mandevilla, with over 20 commercial varieties.

The DIAMANTINA® series features a new cultivar in the Mandevilla market segment. Tourmaline 'Rose Splash' is a heavy bloomer variety with extra large flowers in a beautiful star shape. The super compact plant shape makes this novelty suitable for 'ready to use' plant on terraces and balconies.

Schneider youngplants

Schneider youngplants offers a wide range of annual, biennial and perennial plants.

Begonia semperflorens Premium Red is our number one best seller! It is part of the fastest and most uniform Begonia semperflorens series on the market ever. It forms a compact, round plant. The strong red color of the round large flowers makes it an excellent eye-catcher in the garden!

Butterfly Gardens

Butterfly Garden is a breeder and producer of ornamental plants, cutting and young plants, a.o. Lavandula stoechas.

At Flower Trials 2018 we will show 'White Giant summer'- the best white butterfly lavender on the market. Giant white wings on dark purple flower spikes. Upright and well branched growth habit with medium early flowering. Suitable for big pot sizes. Very strong re-flowering.

Prudac

Prudac serves the professional and the hobby market with easy-to-grow attractive, edible products.

Patio tomato Tutti-Frutti F1 Red Berry is a new addition to our assortment. These are sweet, small, fruited tomatoes with long bunches. They are easy to pick from the bunch and delicious to eat. They grow well on the patio or balcony. Ideal for hobby gardeners.

Varinova

At this moment Varinova has 9 F1 Cyclamen series with a large number of bright colours available.

Merita is our new midi type and has a compact plant shape, firm flower stems and large midsize flowers. The plants have a fine marbled leaf type and abundant flowering. The assortment consists of 11 bright colours, among which very appealing Flamed and SHINE colours.
