Newsletter 2

GENERAL INFORMATION

It is with great pleasure that we present you with newsletter 2 introducing the companies, and (some of) their products, exhibiting at Green05 in Maasdijk during Flower Trials 2019. At Green05 you will meet 4 very different companies.

We welcome your visit!

Brandkamp

Brandkamp is an innovative young plants company. The success is based on the cultivation of chrysanthemums and bedding plants and on the production of young plants.

Tropic Lantana

The successful Lantana "Tropic Lantana" received for 2019 two new varieties. Bamboo (yellow) and Ara (pink) complete the tropical range. Like all Tropic Lantanas they convince by a perfect compact growth as well as an early and long lasting flowering.

Butterfly Garden

Butterfly Garden is a breeder and producer of ornamental plants, cuttings and young plants, a.o. Lavandula and Jamesbrittenia. Our varieties are especially bred for modern programmed cultivation.

Jamesbrittenia bergae

Our new Jamesbrittenia bergae 'Ne:ON Heart' has the most vibrant red colour and is truly unique – a "must see" of the Flower Trials 2019! It forms a strong and healthy plant with beautiful large flowers.

Flower Trials 2019

For more information on participating companies, locations, opening hours, accommodation and registration please visit the website <https://www.flowertrials.com/en>.

How to get to Green05

As we want to make sure that you find your way to our location quite easily, we have added Google Maps for your convenience.

Just click on the map for directions.

Schneider youngplants

Schneider youngplants is specialized in both seed- and cutting-propagated young plants and offers a wide range of annual, biennial and perennial plants.

Begonia semperflorens 'Fiona'

A real beauty! This semi-double type Begonia semperflorens presents strong, upright blooming flowers in radiant red and rose. **Fiona** starts to flower early in the season, is self-cleaning and provides continuous colour throughout the summer until the first frost. The plant stays naturally compact and forms a nice round shape without

using any growth regulator or pinching. Fiona is the ideal patio and bedding plant in your garden for this summer!

Varinova

Varinova concentrates on plant breeding and seed production of Cyclamen. At this moment Varinova offers 11 F1-Cyclamen series, from micro to extra large.

Aloha Mini Cyclamen

The **Aloha** Cyclamen are very suitable to grow in a 10.5-12 cm/4" pot. The plants have small flowers and shell shaped flower petals. All plants stay naturally compact and bloom abundantly. Aloha is (for now) available in very bright Shine Red.
